---

DIBC Members,

The Department of Defense (DoD) Office of Small Business Programs (OSBP) is seeking input from small businesses like yours to better understand how companies are preparing for the implementation of Cybersecurity Maturity Model Certification (CMMC) requirements, which begin appearing in DoD contracts starting November 10, 2025.

Your voice is critical in helping the DoD keep informed about the real-time impact on small businesses so they can tailor the resources, support, and guidance during the transition. We encourage you to take just a few minutes to complete this short, anonymous survey:

**Survey Link:** <https://forms.osi.apps.mil/r/Kj8RFat4A8>

The survey explores your current readiness, concerns, challenges, and efforts related to CMMC compliance. Your responses will help ensure that the support small businesses receive is relevant, timely, and aligned with real-world needs. Feedback is due November 9.

Participation is completely voluntary, and you may choose to provide contact information if you'd like to stay informed or receive follow-up from the DoD OSBP team.

Thank you for taking the time to contribute to this important effort and for your continued role in supporting the defense industrial base.

Best regards,

**DIBC Consortium Management Organization**
